Key to Understanding CDMA Call Detail Reports

Calling number:	This column reflects the number placing the call (the individual who initiated the call). If the call is an outgoing call, this will be the Sprint PCS target number.
Called number:	This column reflects the number actually called. In most cases this number will be the same as the number in the "Dialed Digits" column. If the number has been forwarded, or if there is a routing number, then this will be reflected. If the number has a 11 in front of the area code, that means the call rolled to voicemail and was NOT answered by the customer.
Dialed digits:	This column reflects the digits that the caller enters into the keypad of the phone. If the call is an incoming call, this will be the Sprint PCS target number.
M_R #:	Mobile Role (Type of Call). Listed as outgoing, incoming, routed call or undetermined.
Start Date:	Date and time the call was initiated.
End Date:	Date and time the call was ended.
Duration:	Duration of call, in seconds.
NEID:	This reflects which network element handled the call.
Repoll number:	This reflects which phone switch handled the call.
