

Harlem- Manhattan - NY – Video-3 captured about the time of accident on March 12 2014 -3

Statement: Video-3 shows time of explosion at: 1644 Park Avenue, about 9:30 a.m. This was video captured from the Metro-North Railway platform. The video captured the house explosion that occurred as the south-bound Metro-North train passed the building, about half of its railcars. Show the vibration of the railroad, and debris flying on top of the railway tracks. The southbound train came to complete stop; while a north-bound train, approached, came to a complete stop, passing the southbound train, paralleled up to the third railcar.
