Pilot Cert [REDACTED]

Med. Cert 1st class 10/22/2019

[REDACTED] CRYSTAL RIVER, FL 34428

- STATEMENT -

It was a training flight for complex endorsement, for commercial pilot candidate MR. OLEG ZUEV.

During take off roll, I made an intentional left engine failure as soon as the pilot applied full throttle and started rolling. The pilot froze over control, airplane started getting off to the left side, when throttle cut off the airplane was off from the runway 27. It drifted off and then stopped when airplane hit a small bank next to the runway.

The weather was fine after thunderstorm passed.
