

DO NOT REMOVE FROM STATION

Station CASALE I / Van BUREN

Line/Branch LOOP ELEVATED

All Customer Assistants are responsible for reporting defects in their stations. All defects, except defective fare equipment, must be recorded on the Station Defect Log. When reporting a defect to the Control Center, Customer Assistants must obtain the controller number and the work order number, when available. Customer Assistants will follow up and obtain the work order numbers, when available, for all reported defects.
