SURVEY REPORT 2303013

April 11<sup>th</sup>, 2022

**“MEMCO-5087”**

***THIS IS TO CERTIFY*** that an independent Marine/ Cargo Surveyor for the Campana Marine Service, Inc. did, at the request of:

**ASSOCIATED TERMINALS OF CONVENT, LLC.**

attend a survey on March 27, 2023, in Vacherie, Louisiana to conduct a damage survey owing to the MV Sirocco braking away from the Convent Marine Terminal and striking the barge while at the Uncle Sam dock.

**ATTENDING:**

Mr. Ronald L. Campana II

Campana Marine Service, Inc.

**SURVEY:**

The scope of this survey was to identify the damage from the allision by the MV Sirocco

**FOUND:**

**MEM-5097-** Starboard side hull is set in over a length of 150 feet. The side hull is set in 0"-12" over 150' x 13' with several splits in the plating. The coaming is set in over 100', 0" to 3'. Coaming brackets set in and torn at the base. Five bulkheads are set in and damaged 3' each. Internals damaged in way. Barge will need realignment. Repair costs are \$6/pound and there is over 45,000 pounds of steel to be renewed plus drydocking costs.

Four bids were sent out and two refused to bid as this barge is considered a Constructive Total Loss.

Submitted without prejudice or liability

Captain Ronald L. Campana  
For Campana Marine Service, Inc.
