Elena

The MS PSC has **increased construction inspections** on the Atmos gas system because of the accelerated pipe replacement that is going on in the Jackson, MS area.

Kaleb and I are participating in the Atmos Joint Assessment Meetings.

We are continuing to investigate the incidents.

There have not been any violations letters sent to Atmos.

Rickey Cotton

Kaleb Gibson

Kaleb,

Hope you're doing well and I'm looking forward to working with you in May again!

Can you describe or provide a summary for any actions that Mississippi Public Service Commission has taken since the incidents occurred as it relates to Atmos? That would include any extra inspection performed, letters sent to Atmos, or violations issued, anything of that nature, that were precipitated by the accidents. This information would be added to the Integrity Management Group's factual report.

If you could send me your response by May 3, 2024, I would appreciate it. Thank you.

- Elena
