

Memorandum for Record

Fabian Salazar
Air Safety Investigator
National Transportation Safety Board
Investigator in Charge

NTSB Accident Number: WPR19FA148
Aircraft Registration & Make/Model: N744WT / Robinson R44 Helicopter
Accident Location: Alpine, Utah
Accident Date: May 17, 2019

In an email dated April 28, 2021, the Party Member for Robinson Helicopters indicated to the IIC that after review of the maintenance logbooks for the accident helicopter, there were no indications of issues with the instruments. During the last annual inspection, dated January 13, 2019, there was an entry that stated "Inspected avionics for security and basic electrical function."
