

NATIONAL TRANSPORTATION SAFETY BOARD

Eastern Region – Ashburn, Virginia

Summary of Conversation

Who: Mark Olgelsby, Leidos Flight Service (LFS)

I contacted Mr. Mark Olgelsby at LFS on March 7 and 8, 2019, regarding weather and flight planning services they may have provided in regard to N556PU.

Mr. Olgelsby stated that LFS (including all the vendors that use their database for storage) did not provide any weather or flight planning services for a pilot utilizing the registration number of N556PU.

Mr. Olgelsby said if the pilot of N556PU had filed a VFR flight plan either with LFS or with one of the many vendors that use LFS's database, then LFS would have known about it because LFS is the only service that can provide the flight plan activate/close feature and initiate search and rescue .
