## Notification of Two Dockets

Norfolk Southern Railway Derailment and Subsequent Hazardous Materials Release and Fires in East Palestine, Ohio February 3, 2023 RRD23MR005

The supporting documents for this accident investigation can be found in two separate dockets. This docket and the *East Palestine*, *Ohio* investigative hearing docket.

The National Transportation Safety Board (NTSB) conducted a two-day investigative hearing for this accident. The hearing was held on June 22 and 23, 2023. By regulation, those documents discussed during the hearing were entered in a separate hearing docket designated as DCA23HR001.

The factual reports from the following groups are in the companion investigative hearing docket:

- Mechanical Group Factual Report
- Track Group Factual Report
- Locomotive Event Recorder Factual Report
- Hazard Communications and Emergency Responder Preparedness for the Initial Response Group Factual Report
- Hazardous Materials Group Factual Report
- Materials Laboratory Factual Report
- Onboard Image Recorder Group Factual Report
- System Safety and Human Performance Group Factual Report
- Operations Group Factual Report
- Meteorology Factual Report

• Unmanned Aircraft System Aerial Imagery Factual Report

The Table of Contents from the docket for the investigative hearing is included to aid in locating other specific documents pertaining to the East Palestine, Ohio accident investigation and are **not** duplicated in this docket.
