

Edward C. Foppiano  
Senior Vice President  
Gas Operations

June 10, 2014

Mr. Kevin Speicher  
Chief, Safety Section  
Office of Electric, Gas and Water  
NYS Department of Public Service  
Three Empire State Plaza  
Albany, NY 12223-1350

Re: Park Avenue, Harlem Explosion Investigation

Dear Mr. Speicher:

Con Edison is providing the following information to supplement our previous letter, dated June 3, 2014:

1. Based on our review of work records, we have determined that Mr. Diaz performed plastic fusion on approximately 136 jobs (120 low-pressure and 16 high-pressure) during the period from November 2011 to November 2013. These results were obtained by conducting an electronic search of construction records associated with Hallen (Mr. Diaz's employer) to identify work performed by Mr. Diaz during the relevant time period. Hard copies of the individual records identified through the electronic search were then manually reviewed to obtain task-specific information related to work on plastic pipe. We will provide under separate cover a listing of the above-referenced jobs for discussion during our meeting scheduled for June 10, 2014.
2. Including Mr. Diaz, we have identified thirteen (13) Hallen employees that install plastic pipe. Twelve (12) of these employees, including Mr. Diaz, had varying periods when their qualifications had lapsed. A list of these Hallen installers is attached. As part of our effort to identify relevant documents, we have conducted an electronic search of construction records for work performed by Hallen during the time period from May 1, 2011 through April 30, 2014 involving plastic pipe. To date, our initial review has determined that there are approximately 700 such jobs. We are in the process of conducting an in-depth manual review of the hard copy files for each job to identify the specific work performed by each Hallen installer during periods when their qualifications had lapsed. We anticipate that this review will be complete within two (2) weeks.

I look forward to speaking with you tomorrow.

Sincerely,

Edward C. Foppiano
