

STROKOVSKY

July 2, 2024

Dear Mr. Rayner,

It is my understanding that Reeva was sitting in the back and her mom was sitting in the front, when Reeva's legs started to feel warm. Then Reeva saw smoke coming out from the floor behind her mom's seat. Reeva alerted the pilot who then called the airport. Flames were then coming out from where the smoke was coming from and she tried to kick out the flames. She doesn't remember much else before waking up in the hospital.

Thank you.
