Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Top 1/3 of vertical fin, entire rudder, and cockpit to vertical fin wire deflection cable removed from aircraft. Broken rudder cables. Broken right brake caliper connecting line.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed 17G at 0730 to apply fungicide to corn fields near New Washington, Ohio. Arriving at the second field I circled around it to note obstructions in and around the field noting the high tension power lines. I began spraying the north side of the field flying westbound and under the power lines. The next pass was along the south side flying eastbound to mark the boundaries of the field pulling up over the power lines due to a tree obstruction and the power line tower. The third pass was beside the first pass on the north side again going under the power lines. The next pass was eastbound near mid field for a racetrack pattern. I did not maintain a low enough altitude to go under the power lines and the lines struck the tail of the aircraft. I maintained control of the aircraft with total loss of rudder control and to the east southeast, north of the powerlines, I saw a harvested wheat field large enough to set the aircraft down in. I landed the aircraft in the field tracking straight with full flaps an . With no right brakes the aircraft turned in a left arc towards a field of tall corn. I shut the engine down and came to a stop at the edge of the corn field, powered down the rest of the aircraft and climbed out.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Maintain a low enough altitude to clear powere lines.
