NASHVILLE BRIDGE (Boats)

Nashville TN

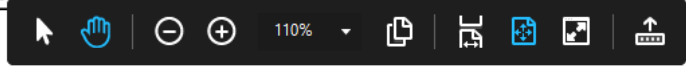

Most recent update: June 21, 2017.

Nashville Bridge Company, (NABRICO), was originally, as its name indicates, a bridge builder. Founded in the 1890s, it was converted to shipbuilding in 1915 and, by the 1960s, it was said to be the world's largest builder of inland barges. George Steinbrenner bought it in 1969 and added a second yard in Ashland City in 1977: he sold the company to Trinity Marine Group in 1995. Trinity closed the Nashville yard in 1996, when the City of Nashville decided that the downtown shipyard property would be more valuable to the community with a stadium on it. This table lists its record of construction of self-propelled vessels: click [here](#) to go to the table that lists its construction of barges. Thanks to Ingo Steller for his contribution to this table.
