

RECORD OF CONVERSATION

John M. Brannen II
Senior Air Safety Investigator
Central Region

Date: 10/13/2021
Person Contacted: James Libiez
NTSB Accident Number: CEN21LA282

Narrative:

Spoke with Mr. Libiez and he confirmed he was the pilot of a Piper Cherokee, N5853W, that was involved in an accident on June 12, 2021. He relayed that while on approach to runway 17, at Covey Trails airport, he got too low on approach and clipped a fence before the runway. When asked if there were any mechanical problems with the airplane, he said that there were not. He asked what he needed to do in order to get his certificate back and I explained that NTSB is non-regulatory and that all of those matters would have to be discussed with the FAA.
