

Timothy Sorensen
Sr. Aviation Accident Investigator
Aviation Safety - Central Region

Date: July 9, 2024
Subject: CEN24LA234 - Ava, Missouri
Contact: Jacob Eskola - Pilot

Mr. Eskola provide the following additional information:

Concerning the brakes, I did not consider that aspect but as I have thought through this, the brakes were functional and without issue. Pressure applied was a bit more than normal as I recall, but during run-up, holding the plane in place wasn't a problem, just required a bit more brake pressure.
