

Fabian Salazar
Air Safety Investigator
Western Pacific Region

Date: March 13, 2025

Subject: WPR25LA009/ Record of Conversation

Contact: Patience Ely / Flight Instructor

During a conversation with the flight instructor, she provided the following information.

- The student was flying the airplane.
- After the second bounce, the student applied full power for the go-around.
- The airplane quickly settled back to the runway where the nose wheel collapsed.
- She assumed the flight controls about that time and brought the airplane to a stop and secured the engine.
