

RECORD OF MEMORANDUM

Samantha Link
Aviation Accident Investigator
Central Region

Date: July 13, 2022
NTSB Accident Number: CEN22LA185

Narrative:

The pilot initially survived the accident and died in the hospital 21 days later. The Federal Aviation Administration Civil Aerospace Medical Institute and I attempted to contact the hospital several times, however, the pilot's body was released before an autopsy could be arranged. We were also unable to get a sample of admission blood to complete toxicology.

END.
