

⑦<sup>25</sup>

On March 28<sup>th</sup> early morning hours  
I had woken up to pee, come  
out of Bathroom and about that  
time Tevin Clark opened my Bedroom  
Door and said "He may need you  
upstairs" and about that time the  
general alarm went off, I proceeded  
toward the wheelhouse, when I got  
up stairs we had struck the cell  
at the entrance of Portland Canal  
with the side of the starboard string  
of the tow breaking tow apart,  
I started making phone calls to Report

The Allision to USCG and Company<sup>2</sup>  
Officials as well as giving instruction  
to Pilot and crew, Attempted to  
Save what we could but could only  
Save 1 tank nty.
