

I Had just Green light The upper 4 bridges and The  
Current then Grabbed the whole tow as was pulling it out into the  
river. I try to drive towards Ky bank in attempt to  
miss the cell. Ended up touch @ the 2nd coupling out (400ft)  
in result breaking out my stBD Suez up and next one out. Then 5 on Head  
broke Free attempted to stick then on point of Canal in result losing  
the block of 4 I was still faced to. 10 out of 11 went down Dam  
side. I tried to save and rescue what i could. Almost lost the Boat.  
Couldn't do anything ~~was~~ with the 10. So I went and saved the  
L: MTY that did stick on point.
