Aircraft landed at Airport at 1:30. Departed Airport @ 1:45, observed aircraft climbing out with no problems then suddenly impacted Runway. I was first person on scene thought he was in aircraft tried to use extinguisher on door, then heard him yell at me he was located E side of Runway North of Alpha 2 taxiway. Pilot was burned on arms and back, told me he had a good position climb rate with no problems went to get his oxygen nose piece and impacted Runway.
