

**UGI UTILITIES RESPONSE TO NTSB INFORMATION REQUEST**  
**April 2, 2023**

**NTSB Request No. 13: Indicate whether the mains on S 2nd Avenue between Franklin & Penn, and on Cherry St were scheduled for replacement. If so, provide the replacement schedule and rationale.**

**UGI Response:** The mains on S 2nd Ave between Franklin St and Penn Ave, as well as the mains on Cherry Street were not scheduled for replacement. Given that the main on S 2nd Ave was coated and cathodically protected steel and the main on Cherry Street PE, it was not part of our Long-Term Infrastructure Improvement Plan. There were no known issues that would warrant the replacement of mains on either of those streets.
