Yes, it was for the aft unit. To the best of my memory I replaced as I found it. Thinking it was on the floor.

Good morning Capt, thanks again for the pix. I'm hoping to get this report done in short order. One quick question, in 2021, a softstart unit was ordered through Safe Harbor – was this for the fwd unit or aft unit? Also, if it was installed as a replacement, do you recall if it was mounted on a vertical surface (wall/bulkhead), or attached to the deck/floor?

Thanks very much,

Brian
