

RECORD of CONVERSATION

Millicent Hill
Air Safety Investigator
Eastern Region Aviation

Date: February 24, 2019
Person Contacted: Cathy Jilbert, Winter Haven Airport FBO

This investigator interviewed Ms. Jilbert in person, and she stated the following:

- She was in a fuel truck on the ramp and she watched the airplane fly overhead.
- She saw both propellers rotating and watched as the left propeller stopped rotating. The witness said she then watched as the airplane "sank" in a descending left turn until it disappeared from view.

I, Jamie Couper, as witness to
the "airplane accident" on February 23, 2019

I was riding my bicycle around the
airport & Bangor, stopping to visit
with several friends along the way...

I decided to go through Eagles Landing
and look for some friends, stopping by
at Credo Churchill's residence...

I proceeded on down the street, and at
the corner, I hear an airplane, "Very loud"
I look up - it was rocking back & forth
with what sounded like thrust, but
not leveling off. I rode a few feet away
when all of a sudden I hear, POP!!
no Engine noise at all!!!

I turned around on my bicycle, and
was at the corner on Idledige, and boom!
it was nose-down diving into the
Roof on the House!!

I rode up in the driveway, & took
Photos, a man came out the door all
bloodied from face to ankle - he
appeared about 30 yrs. old... He was
hobbling, clutching his leg & groaning...
Neighbors were crying & hollering by that
time! I made a few phone calls to friends,
& looked for "first-responders"...

Police cars arrived, & Fire Trucks
thereafter, as well as Residents
of Cayes Landing.

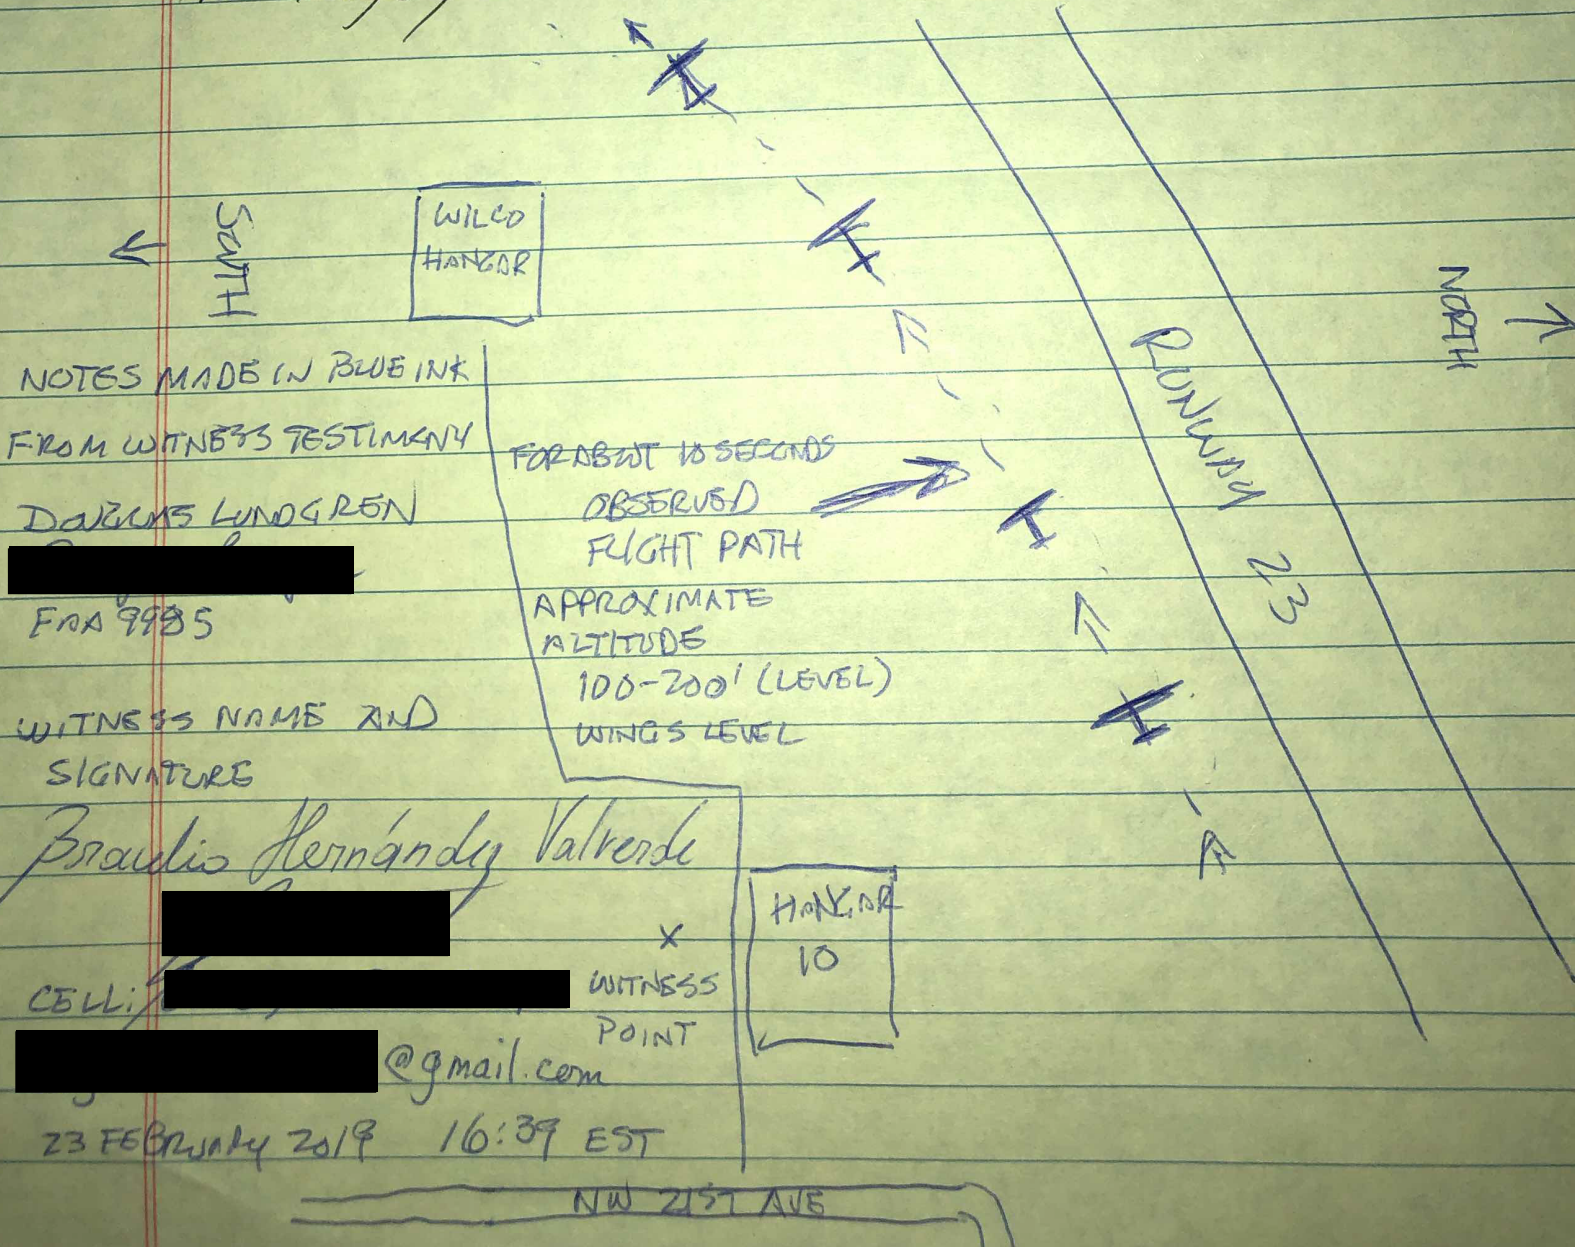

Thank You,
Genie Cooper
(AA # [REDACTED])

WITNESS STATEMENT

Just before 1:00 pm I came to DME services to take a test. ^{IN THE PARKING LOT}

I got off the vehicle and I saw an amphibious plane flying slowly and I noted that its engine I was almost stopped. (STOPPED). DOES NOT REMEMBER LANDING GEAR UP OR DOWN.

I continue towards the building and I heard an impact. I wonder if it was the airplane... and a couple of minutes later, the emergency I HEARD EMERGENCY VEHICLE
