Mr. Schauer,

Sir, I got your paperwork for the last annual on N64EM. Did the airplane or pilot logbooks ever get found. Also, can you supply a statement for your recollections of the pilot's flying abilities? Thanks in advance.

vr No logs found here.

When I flew with John in N64EM to seat the new Rings, we were in the air about 25 min. He did use a check sheet for take off and I watched the mixture and manifold pressure. Take off and landing was normal, I suggested the use of flaps.
