Vehicle Inspection Report

VIR #: VSY010944080510094643

Sticker #: SSY010944080510094643

The Gateway Vehicle Inspection Program (GVIP) is a key component of the ongoing effort to improve air quality in the St. Louis Region. Vehicle pollution increases as a result of poor maintenance, equipment malfunction, or tampering with emissions controls. By requiring the repair of vehicles that fail the emissions inspection, the GVIP increases vehicle fuel economy, extends vehicle engine life and decreases vehicle air pollution that contributes to the formation of ground-level ozone, a powerful lung irritant. This emissions inspection was performed in accordance with Department of Natural Resources rule 10 CSR 10-5.381. This inspection is mandated by your United States Congress. *This vehicle inspection report is not used for registration purposes.*

Inspection Station Information		
Date/Time: 8/5/2010 9:46:43 AM	MRRT Station #: N/A	GVIP Station #: 036062
Station Name: UNION AUTO CARE		GVIP Analyzer #: SY010944
