Subject: RE: Walter Huang Matter

Mr. Karol,

I am still working on getting ahold of Hans Ting. We spoke with Sevonne, and she does not know the PIN on Walter's Apple phone. She knew he loved to play games on his phone, but says he never did so while driving. My supposition is the game may have continued to run in the background if he did not close out the application on his phone after opening it. Sevonne did not recognize the name "Three Kingdoms" as something Walter was interested in.

Will advise re Hans Ting shortly.

Thanks,

Mark Fong

Mr. Fong,

If possible could you advise sometime this week regarding: 1) Contact information for Hans Ting; 2) Cell phone PIN if known; and 3) any information family shares regarding iPhone game application.

I understand if information is not available on all three of these items.

Thanks,

Don
