

Aviation Investigation Final Report

Location: Concord, California Accident Number: WPR20CA174

Date & Time: April 12, 2020, 14:30 Local Registration: N111XW

Aircraft: Extra EA 300 Aircraft Damage: Substantial

Defining Event: Loss of control on ground **Injuries:** 1 None

Flight Conducted Under: Part 91: General aviation - Personal

Analysis

The pilot of the tailwheel equipped airplane reported that, after touchdown he applied the brakes and the tail very abruptly "whipped around" 180°. The left main landing gear collapsed, and the left wing tip struck the runway surface, resulting in substantial damage to the wing spar. The pilot reported that there were no mechanical failures or malfunctions with the airplane that would have precluded normal operations.

Probable Cause and Findings

The National Transportation Safety Board determines the probable cause(s) of this accident to be:

The pilot's loss of directional control during the landing roll, which resulted in a ground loop.

Findings

Aircraft Directional control - Not attained/maintained

Personnel issues Aircraft control - Pilot

Factual Information

History of Flight

Landing-landing roll	Loss of control on ground (Defining event)
Landing-landing roll	Landing gear collapse

Pilot Information

Certificate:	Private	Age:	55,Male
Airplane Rating(s):	Single-engine land; Multi-engine land	Seat Occupied:	Rear
Other Aircraft Rating(s):	None	Restraint Used:	5-point
Instrument Rating(s):	Airplane	Second Pilot Present:	No
Instructor Rating(s):	None	Toxicology Performed:	No
Medical Certification:	Class 3 With waivers/limitations	Last FAA Medical Exam:	January 10, 2019
Occupational Pilot:	No	Last Flight Review or Equivalent:	March 28, 2019
Flight Time:	1145 hours (Total, all aircraft), 26 hours (Total, this make and model), 1017 hours (Pilot In Command, all aircraft), 3 hours (Last 90 days, all aircraft), 1 hours (Last 30 days, all aircraft), 0 hours (Last 24 hours, all aircraft)		

Aircraft and Owner/Operator Information

Aircraft Make:	Extra	Registration:	N111XW
Model/Series:	EA 300 Undesignat	Aircraft Category:	Airplane
Year of Manufacture:	1997	Amateur Built:	
Airworthiness Certificate:	Aerobatic; Normal	Serial Number:	064
Landing Gear Type:	Tailwheel	Seats:	2
Date/Type of Last Inspection:	February 6, 2020 Annual	Certified Max Gross Wt.:	2095 lbs
Time Since Last Inspection:	16 Hrs	Engines:	Reciprocating
Airframe Total Time:	1148 Hrs at time of accident	Engine Manufacturer:	Lycoming
ELT:	C126 installed, not activated	Engine Model/Series:	AEIO-540
Registered Owner:	On file	Rated Power:	300 Horsepower
Operator:	On file	Operating Certificate(s) Held:	None

Administrative Information

Investigator In Charge (IIC):	Link, Samantha
Additional Participating Persons:	David Vickers; Federal Aviation Administration; Sacramento, CA
Original Publish Date:	February 2, 2021
Last Revision Date:	
Investigation Class:	Class 4
Note:	This accident report documents the factual circumstances of this accident as described to the NTSB.
Investigation Docket:	https://data.ntsb.gov/Docket?ProjectID=101420

The National Transportation Safety Board (NTSB) is an independent federal agency charged by Congress with investigating every civil aviation accident in the United States and significant events in other modes of transportation—railroad, transit, highway, marine, pipeline, and commercial space. We determine the probable causes of the accidents and events we investigate, and issue safety recommendations aimed at preventing future occurrences. In addition, we conduct transportation safety research studies and offer information and other assistance to family members and survivors for each accident or event we investigate. We also serve as the appellate authority for enforcement actions involving aviation and mariner certificates issued by the Federal Aviation Administration (FAA) and US Coast Guard, and we adjudicate appeals of civil penalty actions taken by the FAA.

The NTSB does not assign fault or blame for an accident or incident; rather, as specified by NTSB regulation, "accident/incident investigations are fact-finding proceedings with no formal issues and no adverse parties ... and are not conducted for the purpose of determining the rights or liabilities of any person" (Title 49 Code of Federal Regulations section 831.4). Assignment of fault or legal liability is not relevant to the NTSB's statutory mission to improve transportation safety by investigating accidents and incidents and issuing safety recommendations. In addition, statutory language prohibits the admission into evidence or use of any part of an NTSB report related to an accident in a civil action for damages resulting from a matter mentioned in the report (Title 49 United States Code section 1154(b)). A factual report that may be admissible under 49 United States Code section 1154(b) is available here.
