

### Safeguard Your Flights with Valuable Insights: Practical FDM Solutions for Smaller Operators

Moderated by  
NTSB Vice Chairman  
**Bruce Landsberg**

**Thursday, October 20, 2022**  
**11:00AM – 1:00PM ET**

COLLOCATED WITH THE 2022 NBAA-BACE CONFERENCE • ORANGE COUNTY CONVENTION CENTER • ORLANDO, FLORIDA

**H**ow can small and medium-sized operators use data to improve the safety of their operations and prevent accidents? It's not as daunting—or as costly as it seems. In this special event, NTSB Vice Chairman Bruce Landsberg will moderate a discussion with experts from government and industry about the benefits and proven value-added of flight data monitoring (FDM) programs for any sized operation.

In this roundtable, you will learn how to incorporate FDM from others who have done it, and find out what insights can be revealed to improve your operations. Our expert panel will explore the impediments and obstacles to implementation and discuss real-world practical strategies and solutions. NTSB investigators will also discuss what they have learned from crashes where FDM could have made a difference.

### PARTICIPANTS

- Dave Lawrence, *Senior Investigator, NTSB Office of Aviation Safety*
- Chris Babcock, *Branch Chief, Vehicle Recorders Division, NTSB Office of Research and Engineering*
- Tom Luipersbeck, *Manager (Acting), Flight Standards, Safety Standards Training & Simulation Group, Office of Aviation Safety, FAA*
- Andrew Walton, *Director of Safety, Liberty University School of Aeronautics*
- Jason Greenleaf, *Director of Safety, Jet It*
- Reid Nelson, *President, Tidal Aviation*
- Morgan Bonde, *International Captain and Safety Manager, Adobe*
- Doug Carr, *Senior VP of Safety, Security, Sustainability and International Operations, National Business Aviation Association*
- Frank Raymond, *Director of Safety, Air Charter Safety Foundation*
- Jens Hennig, *VP Operations, General Aviation Manufacturers Association*

The emphasis of this NTSB discussion will be on smaller operators, who may not have the resources of larger commercial flight departments, and how they can easily, affordably, and practically incorporate FDM into their safety and operational activities.

### AGENDA

- 11:00AM–11:20AM **Making the Safety Case**
- 11:20AM–11:45AM **The Elephant in the Room: Impediments to Adoption**
- 11:45AM–12:30PM **Operator Case Studies: Best Practices from Industry**
- 12:30 PM–12:45PM **Implementing a Program: Options and Opportunities**
- 12:45 PM–12:55PM **Discussion: Increasing Adoption and Next Steps**
- 1:00 PM **Close**

This event is open to the public and all conference attendees. It will be held immediately following NBAA's Safety Forum in the NBAA Safety Education Center, Room S210 A/B/C.

The NTSB is an independent federal agency charged by Congress with investigating every civil aviation accident in the United States and significant events in other modes of transportation—railroad, highway and transit, marine, pipeline, and commercial space. We determine the probable cause of the accidents we investigate and issue safety recommendations aimed at preventing future accidents. For more information, visit [www.nts.gov](http://www.nts.gov).
